

TAMBOUR PANELS ACOUSTIC SLATWOOD WALL PANELS

White River offers Solid Wood Tambour Panels in Hard Maple, Paint Grade, Red Oak, Walnut, and White Oak for creating a modern and unique look. You can paint or stain our Wood Tambour Panels to match your designs. As a result of the flexible backing, the Tambour can bend around curves and corners to create a seamless layout. Our Tambour is made of natural wood, so it must be stretched before painting, staining, or coating.

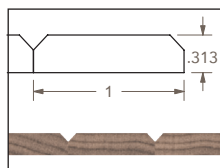

A minimum of 48 hours must pass before finishing the material.

To request a 14pc tambour sample set (\$153/delivered), email Info@WhiteRiver.com.

5 HARDWOOD SPECIES & CUSTOM PANELS
